Listing details

Description:

Attention Winter Campers: Before Booking, Please Note That This VAN IS NOT Made FOR Winter Weather AND Cannot BE Used FOR SKI Trips. Please USE IT FOR Winter Camping IN Southern, Warmer Climates.

Thor Scope 18M camper van that is easy (and fun!) to drive. The floor plan is the best we've seen and includes a fold out sofa bed, kitchenette, swivel front seats and a full bathroom. Air conditioning? Yes! Solar? Yes! Hot water and heat? Yes!

Kitchen: The kitchen includes a dual-burner gas stove top, microwave, fridge/freezer and sink with hot and cold water. Cookware, dishware, coffee service, spices, cutting board and chef's knife are included.

Bathroom: The bathroom features a hot shower, toilet, and sink. Blackout window curtains and a locking sliding door to the main area ensure privacy.

Sleeping: The sofa converts to a bed for two (a separate inflatable child's mattress is available as an add-on). Two sleeping bags (that can be zipped together for couples), two pillows, and removable bag liners are included for a cozy night's sleep. Blackout curtains are provided for all windows.

Seating: Two front swivel seats, plus two rear side-facing seats with lap belts.

Camping off-grid: 190W of solar power for lights, fans, fridge, and other DC-powered accessories. The on-board generator gives you touch-of-a-button power if you need to run the microwave or air conditioning. No pulling cords. Simply touch a button and it starts right up.

Driving: Driving is made easy with comfortable seats, a smooth ride, and computer-controlled wind correction. The dash screen displays the rearview camera at all times and includes Apple Play and Android Auto so you can integrate your phone into the system. Important! This van is NOT made to go off road. Mild dirt roads or gravel roads are fine, but rough terrain needs to be avoided.

Other things of note:

-Plugs into a standard 30 amp RV receptacle.

- A touch screen display allows you to navigate the many features including climate control, lights (and dimmers) and the power awning.
- Bike rack for two bikes.
- WiFi booster if you need to connect for work or social media.
