Listing details

Description:

Rocky is a new 2023 Ram Promaster camper van, professionally converted by DM Vans. He's fully equipped for incredible year-round adventures, with a toasty warm cabin heater, induction stove, queen size bed, sink, ceiling fans, and tons of storage space for gear and/or dogs.

The queen sized bed is an RV short, sleeping sideways across the van. The Roam Rest mattress is super comfortable. You'll love being able to camp overnight at your destination to start the day with adventure instead of traffic; or just grabbing a nap before going to the next activity. Taking your 4-legged best friend makes it easy to stay late.

This rig has a huge fridge and cabinets so you can bring all the food you need. The solar system keeps the 300Ah house batteries charged, and if you're lucky enough to have a powder day, the DC-DC charger will charge the house batteries just by driving. The 2000W inverter will keep all your electronics running. There's also the option to plug in to shore power if that's available.

The kitchen is stocked with all the basics you need to cook. The induction cooktop boils water in 70 seconds so no need to slave over a home-cooked meal. The water system is simple and fully contained inside the van, so no worries about freezing water lines.

The garage area under the bed is huge and has anchors to secure all your gear and extras. You can even strap in the dog's crate for safe travels.

Rocky drives like a dream, with all the safety features and options you expect in a 2023 model year vehicle. He comes with new Michelin Agilis Cross-Climate M+S tires and meets Colorado's traction laws. He also has heavy duty suspension and electronic roll control that makes the van drive really nicely.
